

Aftercare Quick Reference Card

Congratulations on your new tattoo! Follow these steps to ensure a beautiful heal.

Day 1

- Remove bandage after 2-4 hours
- Wash gently with lukewarm water and fragrance-free soap
- Pat dry with clean paper towel
- Apply thin layer of recommended ointment

Days 2-7

- Wash 2-3 times daily, moisturise after each wash
- Expect redness, slight swelling, and ink weeping — this is normal
- Wear loose clothing over the tattoo

Days 7-14

- Peeling and flaking will begin — DO NOT pick or scratch
- Continue moisturising regularly
- Itching is normal — tap gently, never scratch

Weeks 3-6

- Tattoo enters deep healing phase
- Skin may appear cloudy or milky — this clears as it heals
- Continue applying sunscreen when outdoors

DO NOT

- × Soak in water (baths, pools, ocean) for 2-3 weeks
 - × Expose to direct sunlight or tanning beds
 - × Pick, scratch, or peel flaking skin
 - × Apply alcohol, peroxide, or Vaseline
 - × Let pets or dirty surfaces contact the tattoo
-
