

Aftercare Instructions

Proper aftercare keeps your lashes looking full and extends the life of your extensions.

First 24 Hours

- Avoid getting lashes wet for 24 hours after application.
- Do not touch, rub, or pull at your lash extensions.
- Avoid steam, saunas, and hot showers (direct steam on face).
- Do not apply mascara or eyeliner to the lash line.
- Sleep on your back or side to avoid crushing lashes.

Ongoing Maintenance

- Gently brush lashes daily with a clean spoolie.
- Cleanse lash line daily with an oil-free lash cleanser.
- Avoid oil-based products near the eye area (makeup remover, moisturiser).
- Do not use waterproof mascara or mechanical eyelash curlers.
- Book infill appointments every 2-3 weeks to maintain fullness.

What to Avoid

- × Pulling, picking, or attempting to remove extensions yourself.
- × Oil-based cleansers, serums, or makeup removers near eyes.
- × Rubbing eyes or sleeping face-down on the pillow.
- × Cotton pads or cotton buds near extensions (fibres catch on lashes).

Warning Signs — Contact Us If:

- ! Persistent redness, itching, or swelling around the eyes
- ! Allergic reaction (swollen lids, burning sensation)
- ! Excessive lash shedding or bald patches
- ! Pain or discomfort when blinking
